Scottish Legends Cars Championship

Bulletin SLC 2011 / 4

Amendments / additions are shown in bold type

The following is added to section 6.7. It allows only new Rookie drivers to use tyres in the final 3 rounds that will be specified for 2012, as stocks of the older BF Goodrich tyres run out .

6.70 TYRES:

The tyre must be a 205/60R13 BF Goodrich T/A Comp HR4. A new manufacturer may supply replacement Legends Edition tyres for 2011. Tyres may not be soaked, softened, siped (razor cuts), grooved or re-capped (remoulded). All white letters of the BF Goodrich Tyres logo must face outward but the „BF Goodrich □ logo must be highlighted in white. No tyre at any time will be softer than 58 points on the durometer. Tyre warmers and any other means of artificially warming tyres are prohibited. When the top of the wear-bar indicator appears at two points on the tyre (side by side or in the same groove) or the tread depth is two thirty-seconds of an inch or less on any two points across the tread (measured from the bottom of the tread, not the top of the wear-bar), the tyre will be deemed as illegal. Cutting out or tampering with the wear-bar is not permitted, damaged tyre sidewalls may not be repaired in any way. It is prohibited to use traction compounds or any substance that might alter the physical properties of a tyre as supplied by the manufacturer. Tyre cleaners and shiners, tyre softeners, track adhesives, brake fluid, diesel fuel, etc will not be permitted on tyres. The use of tyre heating/heat retention devices, tyre treatments and compounds is prohibited.

Wet races – When a race is declared wet by the Clerk of the Course a substitute tyre must be used, this is Federal Mogal 205/60 x13 Legends Edition, all 4 tyres must be of the same make / type when fitted to a car.

Only Rookie drivers who join the Championship for the final 3 rounds (September 10th, September 24/25th, October 9th) may use either the specified BF Goodrich T/A Comp HR4 or Federal Mogal tyres in wet or dry races.
